### Event Information

---

- A battery operated, continuous loop lure machine will be used. The lure will consist of plastic strips.
- An electronic break-the-beam timer will be used to record time.
- These events will be run concurrently. Dogs that have not yet run will have priority over dogs that will be running for the second test.
- GMKC may break periodically at the discretion of the Field Committee to accommodate workers and allow for lunch.
- This is a rain-or-shine outdoor event. Please plan accordingly.
- This event is held on the Cabarrus Arena and Event Center property. The property is **partially** fenced. In addition, temporary fencing will be used to mark the boundaries of the course.
- Dogs are to be walked prior to running to warm them up and again after their run to cool them down.

### Running Your Dog

---

- Dogs will be brought to the start line on leash and released only upon a verbal signal (“Tally Ho”) from the Huntmaster. It is recommended that dogs be handled with a “slip lead” that gives an instantaneous freedom to the dog when “Tallyho” (release) signal is called by the Huntmaster. Dogs may be released by hand, folded leash or using a traditional lure coursing slip lead.
- Dogs may run with or without a collar for safety reasons. Unacceptable collars are choker collar, prong collar, Martingale collar, or electronic collar. Tags, bandanas or other similar items are not allowed for safety reasons.
- Owners may use an elastic band to hold the dog’s hair from their eyes.
- Owners assume all responsibility with regard to the dog’s collar and paraphernalia on the dog.
- Dogs may start up to 10 feet behind the start line.
- There will be a safe run-out area that is a minimum of 30 yards. The owner or someone familiar with the dog should stand at the finish in order to catch the dog once the course has been completed.

### Time

---

The FAST CAT is a timed straight race of 100 yards where a dog chases a lure. Dogs are run singularly and earn points based on their handicapped speed. The dog’s time to complete the 100 yard dash is converted into MPH using the following formula:

$$\text{MPH} = 204.545 / (\text{dog's time})$$

A handicap system is applied to a dog’s MPH to determine the number of points earned. Points = MPH x dog’s handicap. The handicap is based on the height of the dog at its withers:

- 18” or greater = handicap is 1.0
- 12” up to less than 18” = handicap is 1.5
- Below 12” = handicap is 2.0

### Titles

---

Titles are earned by accumulating points. The following titles will be awarded:

BCAT = 150 points

DCAT = 500 points

FCAT = 1,000 points

FCAT# = every additional 500 points (i.e. FCAT2=1,500 pts.)

### Canine Partners (PAL Number)

---

If you have an All American dog without an AKC registration number, you can still compete. You can apply directly on-line and immediately obtain a PAL number by going to <https://www.akc.org/register/information/canine-partners/enroll/>. GMKC will also have forms at the event for submittal to AKC directly for you.
